

My best friend David 2

As usual, do not read this if you shouldn't and practice safe sex. Enjoy!

I was sitting at the breakfast table eating. I was thinking about how I could get closer to David when Dad walked in to get another cup of coffee. He told me that we were going to Louisville for a long weekend since we had a four day weekend. He said that they wanted to go to do some furniture shopping at some sort of huge wholesale place...it sounded really boring. That was when the bright idea about inviting David to go with us.

Dad said that it would mean that we would have to get two hotel rooms...I was thinking awesome. He thought about it a moment and said okay.

I could not wait to get on the bus and ask David. The seat next to David was open and I slid in. I told him about the trip and asked if he wanted to go. I held my breath. I was sure he would think it was a stupid idea. He seemed to hesitate and I told him that we would have our own hotel room. He said yeah and said he would call his mom during lunch.

During English which was the last class before lunch, I had a massive hard on. When the bell rang, David went to the office to call his mom.

I was sitting in the cafeteria and saved a place for him...he was all smiles and said his mom would call my mom and work out the details. We talked about what we would bring with us. We decided to bring some games and card to keep us busy while Mom and Dad were shopping. I silently hoped we would find some new games to play.

Thursday afternoon we picked David up. It was late when we arrived in Louisville. Dad said we would eat at the hotel. After dinner we went to our room which was next to Mom and Dad. We played cards for a while and decided it was time to get ready for bed. I watched as David pulled a nightshirt out of his bag. He set the night shirt on one of the double beds in the room and took off his shirt. I was standing behind him watching. Next he kicked off his shoes and pulled off his socks. In one quick movement he slid his jeans and briefs off in one movement. He reached for the nightshirt. I was completely oblivious that I had not even started to change clothes. I was still watching him as the hem of the nightshirt covered his bare ass.

David turned around and looked at me funny. I thought you were going to change clothes. What are you doing?

I blushed and said that I zoned out. I started to undress. I realized that I was slightly hard and now had to undress in front of David. As I got down to my underwear, I noticed that David was watching me intently. I pretended to look for my retainer so I could turn away from him slightly.

I dropped my boxers to the floor and grabbed the pajama pants. I think pulled on a tee shirt. We played cards some more. David said he was thirsty. I had some change and we had walked by a drink machine on the way to the room. He asked if we should get dressed to go get a drink.

We decided to go as we were. We ran down the hall. I thought I saw his nightshirt tent out when we were buying drinks from the machine. When we got back to the room I look at David and there was no question that he had a major boner.

I could not help myself. I said whoa what is that and I took a swipe at it. My finger tips grazed the head of his rock hard penis. David turned bright red and stammered that he bet I had one too.

I was kind of bent half way over trying to hide my rock hard cock. He made a grab for it and I turned my back to him.

That did not slow David down. He wrapped both arms around me and made a grab for my achingly hard boner. While his left hand missed because I was twisting away from him, I told him he was wrong.

David said Oh yeah...and then grabbed with his right hand. His left arm is around my waist and his right hand grabbed my cock. He laughed loudly and said, what's that?

I felt his hard cock pressed against my hip. We were both laughing hard when my Dad knocked on the door and said it was time for bed. I opened the door a crack. He said to keep the noise down and get to bed. We both said yes sir and closed the door.

David looked at me and asked if I was sleepy. I said nope not a bit.

We got on his bed so we would not make much noise when we talked. I was determined to steer the conversation in a sexy direction. I told David about a sophomore that we both knew that told me he got laid by the prettiest girl in school. We both decided that was bullshit. We got kind of quite. I told him about my cousin jacking off all the time. He said that one of his fiends jacked it two times a day.

I looked at him and said all of this talk was making me really horny. He said he was too. I hesitated about the next step until I looked over at him and his night shirt had a huge tent in it.

I quietly asked him if he wanted to jack off. He said sure.

I thought that my heart might explode in my chest it was beating so hard. All of the lights were off in the room except some light spilling out from the bathroom. David said that we should get naked so we don't make a mess.

We both quickly stripped naked and within moments we were both stroking our hard cocks. As much as I wanted to watch David, he was slightly above me in the bed and it would have been obvious I was watching.

I was so nervous and I was sure he was watching me.

In less than a minute all activity next to me stopped. I stopped too and asked why he quit. He said he was done.

I said bullshit...no way...

This went back and forth several times until David grabbed my hand and plopped it down in a puddle of his cum. He said I did it...now you gotta do it.

I started to jack my steel hard cock. He got up and went to the bathroom for a towel. He walked back into the room. I looked at his cum dripping down his belly and running into his pubes. That alone should have been enough to rocket me to a massive climax...but I was too nervous.

I kept jacking like a madman with no results. I had no idea what performance anxiety was...but I was sure in the middle of it. I stroked like crazy for 20 minutes with no results. I stopped.

David said what are you doing...did ya cum?

No...not yet.

Well why did you stop?

Cause my arms were about to fall off and my dick is raw.

He said that I had to keep going. He told me there was no way he was going to be the only one that shot a load. He was afraid that I had tricked him into doing that so I could tell our friends.

Dude I want to cum...but I gotta rest...

He said you gotta do it now....

I said that if that is what he wants then he could jack it for a while...just sure that David would never jack me...he kind of grumbled about it but did not hesitate to reach over and start stroking my still rock hard cock.

It only took a couple of minutes for me to build to a powerful orgasm. I started firing shot after shot of cum...most of it landing on David's arm and stomach. He quickly

grabbed a handful and wiped it all over me. We ended up wrestling around. David was on top of me pinning me down. He was bare ass naked and rock hard.

David got an evil grin and said I know how to get event. With that he started rubbing his hard cock up and down my cum covered stomach. The cum made an excellent lubricant and in a few minutes he was shooting a major load all over me.

When he finished shooting his load, he released my arms and I quickly put them around him pulling us into a tight embrace with our hot cum mixing between our two bodies. I held him close and stroked his back while he recovered from his orgasm. By this time I was hard again. Without saying anything, I gently rolled him over. I felt him wrap his arms around me as I slowly started to hump him using our cum as lube.

David started stroking the backs of my thighs and hips...the nerve endings fired off like little electric shocks. Our cheeks brushed together as my pace quickened. As I neared my climax I lifted my head. Our lips brushed. David pulled me into a passionate kiss just as I started my climax.

We just lay there with me on top of David. He stroked my back and legs. I held his head and neck as I continued to kiss him. Our lips parted and I felt his tongue begin to probe my mouth.

As I kissed him, I felt his penis begin to harden between us. He whispered in my ear that we should clean up and make the next one last. We took turns with the towel cleaning ourselves. I looked at him in the soft light that filtered from the bathroom and saw his beautiful hard cock. I stroked it and whispered that we should take a shower.

As soon as the water was warm we stepped into the shower. David took the soap in his hands and worked up a lather. He used it to begin washing my body and my cock which was now as hard as his. As soon as he finished, I did the same for him. I did not stop with his front.

I lathered my hands again and reached behind him and began to wash his crack. As my fingers passed over his rosebud, I heard a sharp intake of breath in my ear. I continued to play with his rosebud. At one point my soap slicked finger penetrated him up to the first knuckle.
